Attorney-Client Privilege

Enforcement Confidential

FOIA Exempt

FYI: We are working on it. We met with Toeroek last Thursday. They are working on the USSRMC/Mueller/Washington Gp Liability via our Eureka files and Region 4 that has on-going similar litigation with Mueller. As far as the Sunnyside to Kinross, Richard can talk to you on that, but we are feeling more confident as our review progresses. Still, future contract support could be helpful and could be in the mix. I am going to be putting more funding on this work assignment, since we are coming close to the 80 percent of funding used.

Subject: Upper Animas

Hi guys. In our meeting with the remedial program today we learned that Martin is planning a site visit around April 23 and prior to then will likely be looking to you for an assessment regarding PRP liability, hopefully not to be shared with the community.

I wanted to give you a heads up and to see if you want to pursue some contractor support on the successor liability issues.
